

JIC TERMINAL STRAP KIT ASSEMBLY

Provides a strong, versatile, and easily installed means for mounting terminal blocks in JIC boxes. These kits can be installed in all JIC boxes.

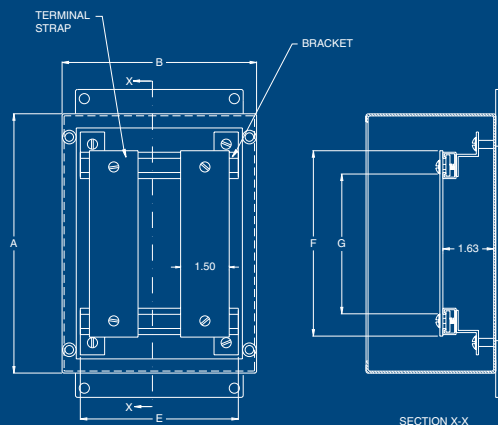

Bracket Assembly:

- Each bracket assembly consists of two brackets which mount on panel stand-offs in the box. Finish is white.

Terminal Strap:

- A 12 gauge flat strap that mounts on top of brackets. They can be positioned anywhere along the brackets and are held in place with spring locking nuts. Finish is white.
